------------------	---------------------

Instructions

- Download and complete the claim form within 4 hours of making your original reservation at a Caesars Entertainment casino/resort.
- Print form.
- The rate on the non-Caesars Entertainment website or advertisement must be confirmed as available. One way to confirm availability is to provide a printout of the screen or screenshot of the web site (showing a time/date stamp of 4 hours) with the lower rate that proves availability via the point of transaction (i.e. the credit card information page that shows the rate, room type, dates, etc). You do not need to book the rate. However, a screenshot from a website that shows the rate, but does not show that it is available and can be purchased, will not be accepted.
- Fax this claim form and a copy of the screenshot, printed webpage, or advertisement showing the lower rate to one of the fax numbers list on the next page. Evidence must prove availability of the lower rate. See Terms & Conditions for more information.
- The Customer Service Center will verify the validity of your claim and respond to you within 72 hours. If you have not received a response from Customer Service within this time frame, you may contact a representative using the email address provided on the next page.
